

## **SELECTION GUIDELINES**

### **MEN'S WORLD CUP AND EUROPA CUP 2025-2026 and Olympic Games 2026**

#### **LEVI WC Races**

Athletes will be selected by the Head Coach based on their training performance, points, and race placements.

In case a required level of performance or point level is not met, SSF will not use all the quota spots (6). If needed, a qualification race will be organized before the event.

#### **SELECTION WC RACES**

For the other World Cup and Europa Cup races a top-15 placement in Europa Cup races is a prerequisite for participation in a World Cup race. Otherwise, a selection is made by the Head Coach based on level of performance, points, quota places and program of the team.

#### **SELECTION EC RACES**

The minimum number of FIS points for participating in a Europa Cup race is 23.00-25.00. Otherwise, a selection is made by the Head Coach based on level of performance, points, quota places and program of the team.

#### **Olympia 2026**

The qualification process for the Olympic Games 2026 has already been running for half a year, and the criteria are being determined jointly with us by the Olympic Committee.
